SUMMARY

.NET Developer with over 7 years of experience specializing in C# (ASP.NET framwork, .net core), Golang, and SQL Server. Demonstrated ability to collaborate with teams, analyze, design, and deliver innovative features, while maintaining and enhancing existing applications. Proven track record of fostering team growth and driving application optimization.

EXPERIENCE

Senior .Net Developer (IT Support) 10/2022 - Present

PT. Praisindo Teknologi

Key Responsibilities & Achievements:

- Collaborated closely with Business Analysts (BA), QA, project teams, and stakeholders to investigate issues, resolve system problems, and continuously improve company applications.
- Conducted detailed issue and bug analysis, performed **Root Cause Analysis (RCA)**, and developed both temporary workarounds and permanent solutions to prevent recurring issues.
- Resolved application and database-related issues by troubleshooting and enhancing **.NET source code**, Stored Procedures (SP), Functions (FN), SQL queries, database jobs, and performing query performance tuning. Investigated and corrected data anomalies when required.
- Ensured system performance and stability by conducting impact analysis and regression checks to verify that code changes did not introduce issues in other modules.
- Managed source code using **GitHub**, supporting proper version control, code integration, and collaboration while minimizing merge conflicts and deployment issues.
- Documented issue investigations and system changes by preparing **Release Notes (RN), implementation documents, before-and-after fix documentation, and lists of modified technical objects**.
- Assisted clients and end users in understanding existing systems and provided explanations and support related to **Business as Usual (BAU)** processes and system functionality.
- Developed and implemented new features based on **client-specific requests, business requirements, and operational needs**.
- Leveraged **AI-assisted tools** to improve the efficiency and effectiveness of issue investigation, root cause analysis, solution exploration, and problem resolution.
- Maintained and supported multiple business-critical applications, including: **WMS IMSSIAR** — Mutual Fund Management System, **WMS RBS Bonds** — Bond Management System, **Mobile APIs**
- **Scheduler and Batch Processing Systems**

Backend Developer .Net 07/2021 - 10/2022

PT. Enviromate Technologi International

Key Responsibilities & Achievements:

- Developed and maintained **.NET-based APIs** to support the business and operational needs of EnviroMate Teknologi International (ETI) and its subsidiaries across multiple industries, including **coal mining, nickel mining, oil and gas, and vehicle rental services**.
- Maintained and enhanced business-critical APIs supporting daily operational processes across multiple subsidiaries.
- Investigated, analyzed, and resolved bugs and technical issues in .NET APIs, ensuring system reliability, stability, and continuity of business operations.
- Designed and optimized **database schemas, SQL queries, and database structures**, with a focus on data integrity,

scalability, and query performance.

- Collaborated with **Frontend Developers, UI/UX Designers, and field operation teams** to design and develop internal systems based on business and operational requirements.
- Provided technical support and problem-solving for critical operational incidents across subsidiaries, including developing and supporting **vehicle tracking and remote control capabilities** for the vehicle rental business, such as monitoring vehicle locations, reviewing location history, and remotely disabling vehicle engines based on predefined operational boundaries.

Developer .Net & Java 10/2018 - 06/2021
PT. Indocyber Global Teknologi

- Key Responsibilities & Achievements:
- Assisted clients in developing and enhancing internal applications using **.NET and Java**, based on their business and operational requirements.
- Investigated and resolved bugs across both **frontend and backend** components, including applications and services built with **.NET and Java**.
- Optimized **SQL queries and database performance** to improve application efficiency, and designed and developed database schemas with a focus on performance, scalability, and data integrity.
- Developed and enhanced a **Web-Based Management System (WMS)** for insurance companies to support their business operations.
- Managed and contributed to multiple client projects across different technology stacks, including **Zurich (.NET Development), Sun Life (.NET Development), Indocyber Internal Projects (.NET Development), Ekreasi (.NET & Java Development), FWD (Java Backend Development), and Mandala Multifinance (Java Backend Development)**.
- Managed and maintained **internal Virtual Machine (VM) servers** as well as client **SIT and UAT environments**, supporting application deployment, testing, troubleshooting, and system stability.

EDUCATION

Information System 2013 - 2017
Gunadarma University - Bachelor's Degree (S1)

- Teaching Assistant at "**Laboratorium Pengembangan Pengolahan Citra (LPPC)",** Gunadarma University.
- GPA: 3.51/4.00.

CERTIFICATES

Go (Golang) Learn Like a Engineer (Microservice) 2024 - Present
PT Praisindo

3D Game Design And Development 2016 - Present
University Gunadarma

Digital Forensic 2015 - Present
Himpunan Mahasiswa Teknik Informatika (HIMT)

Junior Graphic Designer 2013 - Present
KOMINFO RI

Animate WIth Blander 2013 - Present
Himpunan Mahasiswa Teknik Informatika (HIMT)

Computer Networking Competence 2013 - Present
Badan Standar National Pendidikan (BNSP)

Training & Consulting CCNA 1 2012 - Present
Brainmatics

SKILLS

Programming Language

C# (.NET Framework, .NET Core)	Advanced	SQL Query	Advanced
Golang	Intermediate	HTML / ASPX	Basic
		AngularJs	Basic

Database & Reporting Tools

SQL Server	Advanced	Navicat	Intermediate
SSRS	Advanced	DBeaver	Intermediate
Postgres	Intermediate		

Other Technical Skills

Manage Server (internet information services (iis) manager)	Advanced	Manage Git / Github	Advanced
Tunning Query	Advanced	Github Action CI/CD	Intermediate
Postman / Soap UI	Advanced	Manage AWS	Intermediate
Manage Server VM	Advanced	Docker	Intermediate
Capable of performing root cause analysis (RCA) and proposing solutions for system issues.	Advanced	Redis	Intermediate
		Working With AI	Advanced

LANGUAGES

Indonesia	Native	English	Beginner
